WAR IS PREDICTED!

What a Revolutionary Paper in Madrid Says.

THAT PREMIER SAGASTA IS HAPPY

He Considers the Message of President McKinley by no Means Hostile in Tone Towards Spain Etc-

IS STILL DESIROUS OF PEACE

MADRID, April 11.—The republican and revolutionary El Pais prints the following headlines on its front page:

"The solution of the conflict is a national government, a military dictatorship and a war with the United States."

Its leading editorial announces that the conductors of the paper, "putting party politics to-day into the background and thinking only of the fatherland, urge the formation of a national government composed of republicans, liberals and absolute monarchists."

The editorial denounces the government for "meeting patriotic cries with sword cuts," and appeals to the people and the army to "Save Spain from traitors

Senor Sagasta, the premier, on leaving the palace after his daily visit to the queen regent, informed the newspaper representatives that the government was waiting for the full text of President McKinley's message before acting on its contents. He said also that he considered the message, so far as it was made known to him, not hostile in tone toward Spain, and that he would continue desirous of peace, for obtaining which the armistice in Cuba afforded the means.

While the message of the president is much criticized by the general public and by a portion of the press as provocative, it is known that the members of the government and General Woodford do not consider it so, but are confident of a permanent peace. The government has greatly strengthened its position by the means in which it restored order after yesterday's events.

Gerberich and W. H. Miller, Right Supporter, John G. Dubbs; Left Supporter, Dr. W. H. Kochler Warden, Thos. Moore; Conductor, W. Harrison Walker; Chaplin, E. E. Ardery; Inside Guardian David Miller; Right Scene S., Geo. S. Knisely, Left Scene S., J. P. Smith, Right Supporter to Vice Grand S. T. Heverley, Left Supporter to Vice Grand, Geo. VanTries.

An Old Soldier Passes Away.

On Wednesday morning about eleven o'clock the spirit of Robert Tate, an old soldier, and the newly appointed, Postmaster of Nittany Hall, passed into eternity. Mr. Tates death is quite sudden, and no doubt it will be a great shock to his many old war comrades and friends. He was a true soldier always found at his post of duty. He was also a devoted christian man, and a member in good standing in the Evangelical church of that town. Mr. Tates death was due to complication of diseases. He was a little over 66 years of age.

Special Easter Service.

A special service of song was held in the Presbyterian church under the direction of the lady organist, Mrs. R. G. H. Hayes which proved highly enjoyable. Dr. Laurie dispensed with the usual sermon and only gave a short talk on the 'Resurection." The chancel presented a beautiful appearance adorned as it was in a tasteful manner with flowers and potted plants, The solo parts rendered during the evening were taken by Mrs. J. C. Meyer, Misses Henrietta Butts, and Elsie Weaver. Messrs. Harden P. Harris and Henry Brown. The attendance was quite large.

—Postmaster Snyder, Esquire Courter and six other prominent citizens of Blanchard attended an auditors hearing in this city last Tuesday.

FIRE SATURDAY NIGHT.

Y. M. C. A. Gymnasium Burned to the Ground.

Saturday night about quarter of ten o'clock it was discovered that the large and well equipped gymnasium attached to the Young Men's Christian Association and situated in the rear of their building on Allegheny street was on fire. The fire spread with great rapidity and by the time the fire companies reached the scene the building was one mass of flames.

The origin of the fire seems to have been due to a defective flue. Some of the young men had intended taking a bath in the bath rooms attached to the gym and in order to warm the place M. B. Derr an attachee of the association had built a fire in the stove for that purpose. After starting the fire he went out of the building and was sitting in the front rooms of the Y. M. C. A. In a few minutes he heard some one in the street crying fire and on happening to look out the rear window he saw that it was the gymnasium. He at once rushed out but got no farther than the entrance to the gym for the fire had gained such headway and the heat was so great that it drove him back.

It was plainly evident that the building and its contents were doomed before the fire companies reached the scene and their efforts were directed towards preventing its further spread. This they succeeded admirably in doing and it was no easy matter, situated as the building was in the thickly settled portion of the town and constructed of wood of a very inflamable character. The sparks flew in every direction and had it been a windy night much valuable real estate would surely have been destroyed.

The Y. M. C. A. certainly deserves the sympathy of the public in the loss which they have sustained. The gymnasium was large and well equipped with all the latest atheletic contrivances. Large and convenient bath rooms were attached and it is not so long ago since a splendid bowling alley was put in at considerable cost. The loss cannot fall short of $1200 00 with only $600.00 insurance. We hope that the friends of the association will not get discouraged and that this fire may yet work for the good of the Y. M C. A.

Those Cuban Bonds.

WASHINGTON, April 8.—Deputy Treasurer Benjamin F. Guerra, of the Cuban Republic, was before the senate committee on foreign relations today. He said that only about $100,000 of Cuban bonds had been sold and that the bonds were not on the market at all for general sale. Those sold had been disposed of for about an average of 40 cents on the dollar. Mr. Guerra said the expenses of the Cuban army were very slight, but that what expenses there were, were paid by private subscriptions and by the returns from the taxation of the property in the portion of the island controlled by the insurgents. No less than $400,000 had, he said, been collected by taxation. The insurgent army generally secured its supplies from the country, and all the soldiers, both officers and men, were serving without compensation.

The deputy treasurer was asked if he knew the story of the publication of the DeDome letter and, without names, he told the first authentic story of how it was obtained. He explained that it was abstracted by a clerk in the postoffice at Havana who was in sympathy with the Cuban cause and sent back to New York. There its importance was at once realized and it was given out for publication, the action being justified because it showed conclusively what the Cubans had always contended that Spain was double dealing.

LEE IN WASHINGTON.

The Consul General Was Enthusiastically Received.

ROUNDS OF CHEERS GREETED HIM

His Reception at the State House Was Particularly Demonstrative—His Call Later on at the White House.

CUBAN FLAG ON HIS CARRIAGE

WASHINGTON, April 12.—Consul General Fitzhugh Lee arrived here from Havana at 2.30 o'clock this afternoon. A large crowd of enthusiastic admirers had gathered at the Pennsylvania station, and when the general stepped from the train he was greeted with a tremendous outburst of applause. Women waved their handkerchiefs and men their hats, and altogether the demonstration was a notable one.

When the general alighted from the train the crowd was so dense that even with the assistance of a platoon of police it was with difficulty he moved along the platform. Round after round of applause greeted him as he walked slowly and uncovered down the long platform of the station. On reaching the B street entrance, General Lee entered a state department carriage and was rapidly driven up the avenue to the state department.

News that General Lee was on his way to that department spread rapidly and when the carriage drew up at the south front of the building, a big crowd was assembled on the portico. A rousing cheer went up as General Lee stepped from the vehicle, and, bowing right and left, hurried into the building. The cheers had apprised the clerks and other employes of the big building of his coming and there was a wild rush for the state department corridor. Clerks left their desks without leave, officers of the army and navy joined the rush and for the time being the discipline of the building was relaxed. The crowd lined up in front of the elevator shaft, leaving a lane from the door to the secretary's office.

As the elevator came to a stop and the consul general stepped out a scene occurred unprecedented in the history of the great building. Hat in hand, General Lee passed into the corridor, and some one said, "Now, boys," and three rousing cheers went echoing down the long halls. Then there was another outburst and people poured forth from every room. The cheering caused intense excitement, and it was some minutes before quiet could be restored. General Lee bowed to the crowd, and as he reached the door to Secretary Sherman's office turned and bowed again. Then the door closed on him and the throng dispersed.

After a few minutes the consul general emerged, accompanied by Secretary Sherman and Assistant Secretary Day. The three entered a carriage and were quickly driven to the white house, General Lee getting another ovation on his way over. Mrs. Lee, who had joined the general at Richmond, did not come to Washington, she having left the train at Quantico

At the white house the party was shown at once to the library, where the chief executive accorded a hearty reception to the consul general. The only persons present at the meeting were the president, Secretary Sherman, Assistant Secretary Day and General Lee. Secretary Sherman remained with the others for half an hour and then returned to the state department. After being with the president fully an hour, Judge Day and General Lee took their departure, the latter going to his hotel. An immense crowd augmented by a number of ladies who attended Mrs. McKinley's reception, was on the portico when the two came down stairs and General Lee was given a tremendous ovation. Their carriage was being driven away, some one fastened a Cuban flag to the front of the vehicle and this was the cause of additional enthusias

NEWS FROM MADRID.

MADRID, April 11.—(10.30 P. M.)—Numerous groups in the Puerta Del Sol and in front of the offices of the minister of the interior this evening have raised the cry of "Vive Espana." The gendarmes and police scattered them and occupied the square, but the groups quickly reformed several times, until finally the gendarmes charged the crowd. Many were injured or arrested. Senor Aguilers. the civil governor, called out the civil guard to clear the street, but at this hour several groups are parading throughfares in the centre of the city.

MIDNIGHT.—Throughout the evening demonstrations have continued in various quarters. The police and gendarmes have repeatedly dispersed large crowds and there have been several arrests in the lower quarters.

Calm has finally been restored, but the gendarmes are patrolling the streets and other precautions are maintained.

MADRID, April 12—2 A. M.—All the crowds have dispersed, and the streets are deserted.

KNOWS ALL ABOUT IT.

MADRID, April 11.—El Heraldo De Madrid publishes an interview with Admiral Beranger, former minister of marine, in the course of which he expresses his confidence in the ability of the Spanish navy to win in the event of war with the United States. "There is no fear," said Admiral Beranger, "of our Cuban ports being exposed to a night attack, inasmuch as Havana, Cienfuegos, Nuevitas and Santiago De Cuba are defended by electric and automatic torpedoes with a large radius of action."

PLANTED TORPEDOES.

"The late Senor Conovas Del Castilly, who paid attention to these matters, decided in accord with myself, to send to Cuba 191 torpedoes, which must have been placed in these harbors. Chacon, the well known torpedo expert, undertook to convey and place the engines.

"I have already said that by sea we shall be victorious. I will give you my reasons. The first is, the discipline maintained on our warships; the second is that on board the American vessels, as soon as firing is opened, a panic will set in, since it is common knowledge that their crews comprise men of every nationality. Pitted ship against ship then we have nothing to fear."

MAY ACCOUNT FOR THE MAINE HORROR.

El Imparcial, commenting on this interview, says: "That these torpedoes should be sent in case war should break out is very natural, but that as much should be admitted at this time constitutes a two-fold imprudence; in the first place because it warns the enemy, and, the enemy being warned, it will do its best to cripple those defensers; and secondly, because the jingoes, availing themselves of the evidence afforded by the minister of marine of the late Senor Canovas, will assert that one of the torpedoes he describes caused the Maine explosion."

Child Choked to Death.

At Jersey Shore Friday last Mrs. Geo. Bridge, wife of a Beech Creek brakeman, heard her six months old child coughing as though it was choking. She ran up to the room and found the child apparently sleeping. She picked it up and was horrified to find it dead.

JOLLY JACK TARS

Movements of the Flying Squadron Yesterday.

SCHLEY IS VERY TACITURN

Declines to Tell His Destination or Mission—The Blue Jacket at Key West Are Now Becoming Very Impatient.

COMMENDING THE OLD MONITORS.

VIRGINIA BEACH, Va., April 13.—[With the flying squadron April 13.] Commodore Schley started to move the flying squadron to sea precisely at 2:30 o'clock and by dark would have been many miles from land but for the fact that the Minneapolis fouled her anchor chain and wasted over two hours in efforts to free it. Finally, when near Cape Henry, the Minneapolis not having joined the squadron, Commodore Schley sent the Columbia back to Fort Monroe to tell the Minneapolis that she could find the rest of the squadron fifteen miles east of Cape Henry where they would wait her arrival. Beyond this fact, none of the officers or men on board the Brooklyn were aware at 6 o'clock of her destination and Commodore Schley declined to say what her mission was.

The squadron presented a most imposing picture when it finally got together. First came the Brooklyn, then the Massachusetts, then the Columbia, then the Minneapolis, and finally the battleship Texas holding the left of the line, the second place of honor. They bowled along at a splendid speed and Commodore Schley said as he looked back on them from the bridge.

"There's a good lot of fighters for you. I'd like to see anything that can whip them."

If the cruise started today is not a practice one, the first stop will be made at Bermuda.

KEY WEST, April 13.—Everything is in readiness for a quick start, and if the order comes for a warlike move the blue jackets of the fleet and their officers will respond with a burst of enthusiasm which can be appreciated by those who have been spending the weary days of waiting here. During the day the news here that the flying squadron had received orders to sail, and it caused much excitement among both officers and men, tinged with a feeling of chagrin at the fact that Schley's squadron had been the first to get away.

Of course speculation leads to earnest argument—very interesting to hear when conducted without reserve as to the merits of the various ships of the United States navy. All agree that, given safety from torpedoes, the monitors Puritan, Terror and Amphitrite, with ships of their class, are most dangerous to enemy, while safer for those fighting on board.

DEATH OF A LITTLE CHILD.

Tuesday the quiet, peaceful angel of death entered the home of Mr. and Mrs. Edward Young who live near the Valentine iron works, and carried their little son who was only seven months old, into the "Courts of Glory"

A few days ago the little one contracted a bad cold which resulted in pneumonia he being to young to undergo so much pain quickly passed away.

This Thursday at ten o'clock very impressive services were held over all that remained of little James Young the infant babe of Mr. and Mrs. Edward Young. The singing was pretty as also were the words that were spoken by Rev. Goodling.

The pallbearers were the following young men George Miller, Kale Miller, William Rice and Samuel Rice. Interment was made in the Forge cemetery.

APPOMATTOX DAY.

Appropriately Observed by the Grand Army of the Republic.

Just thirty-three years ago last Saturday Gen. Robert E. Lee and his army laid down their arms and surrendered to General U. S. Grant at Appomattox Court House and the last forlorn hope of the southern confederacy was gone. And now all through the north Appomattox Day has come to be celebrated.

To do honor to this day Gregg Post No. 95, Grand Army of the Republic, held a monster camp fire and meeting in the Court house Saturday night commencing at 8 o'clock. A special train over the Bellefonte Central road brought five carloads of people to attend this meeting and when the time for it to commence came around the large court room was crowded to the doors hundreds being compelled to stand. Over the judges bench the national colors were gracefully draped and potted plants and flowers were arranged around in a tasteful manner.

Previous to the meeting the Undine band gave a delightful concert in front of the Court house. At 8 o'clock the old soldiers marched from their rooms in the Harris block to the Court house headed by a drum corp and with their old battle torn colors flying proudly to the breeze. The sight of this flag created much enthusiasm and the veterans were heartily applauded all along the line.

The meeting was called to order by Commander Samuel B. Miller, who after the singing of a patriotic song by the large choir composed of members of the public schools, introduced in a neat speech President George W. Atherton as the presiding officer of the evening. He made a most excellent address which was well received and was loudly applauded especially his patriotic references to our country in its present strained relations with spain.

Ex judge A. O. Furst was then introduced and delivered an address which showed most careful preparation and study. He gave many personal reminiscences of the events which occurred from the fall of Richmond to the surrender of Gen. Lee.

D. F. Fortney Esq., was then introduced and in an eloquent speech ful of wit and humor told of the thrilling scenes incident to the capture of Jeff Davis and the assassinationof Lincoln.

John Blanchard Esq., was then called on and in a manner which thrilled the large audience present recited "Sheridan twenty miles away."

Shortly after this and while Comrade S. H. Williams was talking the startling cry of fire rang out on the night air. For a minute a panic ensued, women and men began to rush for the exits. Just then was the time when coolness and presence of mind came into play, and the presiding officer, President Atherton with a magnetism which compelled attention and at the same time admiration quieted the frantic people and by the time the second alarm sounded they had time to think coolly and those who desired to leave left in an orderly manner.

The noise and confusion incident to the fire soon brought the meeting to a close. A rising vote of thanks was extended to President Atherton for the able manner in which he presided. Thanks were also due to the public school students and others who took part in singing of patriotic songs during the evening.

—We are very glad to announce that Mr. Roy McCalmont is rapidly recovering from his recent attack of sickness.

—The corner-stone of the United Evangelical church near Spring Mills, will be laid on April 23th Rev. J. J. Lohr, officiating.

Lee Sails.

WASHINGTON, April 8.—The expectation of state department officials is that General Lee will be out of *Havana* before another sun sets on that city. This statement is based on the opinion of Assistant Secretary Day who said this afternoon that the consul general would leave his post of duty probably to-morrow on the Olivette.

A dispatch was received at the department late this afternoon from General Lee but it was said it related simply to a matter of detail of not great importance. From the fact that he made no reference to any disturbance or ill-feeling the officials take it for granted that the day in Havana passed without anything of moment happening. Sunday at the very latest it is now believed all the consular officers of the United States and Cuba and all American officers who desire to do so, will have left the cities where they are ocated and be either in the United States or abroad vessels bound thither.

HAVANA, April 8.—La Lucha to-day commenting on the attitude of Consul General Lee, declines to believe that he has sent word to the papers in the United States that the Americans in *Havana* are in danger. The article, which is very fair says that General Lee represents the United States and not Spain and that this fact must be remembered. As for dangers, La Lucha reminds its readers that General Lee was here during the demonstration last January and freely walked the streets unmolested.

This morning Military Governor Arolas chief pagliery, of the Orden Publica guards, and others with a mounted staff, inspected the military defenses of Havana. The lines of defense were constructed by pagliery prior to his appointment as chief of police. He was congratulated by the inspecting officers upon the plan of construction, emplacements and the generally excellent condition of the defences. The usual ceremonies attending Good Friday were carried out to-day. This afternoon there was a slight rainfall.

KEY WEST, April 8.—The day here has been one of expectancy and conjecture. There have been no advices from Washington indicating any change in the situation and the little remaining preparation has gone on with incessant vigor.

Apart from the arrival of the Mangrove and the monitor Amphitrite, the only incident of the day was of a tragic character, Chief Gunner's Mate, Johnson, of the gunboat Newport while making an examination of the ship's bottom, met with sudden death from asphyxiation. The exact cause is unknown but it is thought the air pipe became entangled in some way. He was down some time, and as he gave no signals, he was drawn up, when he was found to be dead. The accident has cast a gloom over the ship's company. The remains will be interred here tomorrow morning. The examination was a routine affair and not made because of any supposed defect.

The Smartest Dog.

John N. Conover, the liveryman, has, perhaps, the most intelligent dog in all this country. He is a Shepherd and is valued very highly by his owner. George Coffey went out home with Mr. Conover one day, and upon his return related the following to a representative of the News: "Well, sir, John Conover has got the smartest dog I ever saw, and if he was mine I wouldn't take $100 for him. I was out at John's today, and it was raining. The dog was lying by the stove and John said to him, calling him by name: 'This fire is about out. Go and get a stick of wood.' The dog sprang up, went hastily to the wood house and returned with a stick in his mouth. Mr. Conover then remarked, 'Go up stairs and get my old hat.' The summons was obeyed, and in two minutes Mr. Conover was presented with his hat, but it was not the one he wanted, so he told the dog to take it back and bring another one, describing it, and this time no mistake was made. He then said to the dog: 'It is raining. Go and see that the cattle are in the field convenient to the barn The dog started with a yelp, and it was not long until he came in, satisfying his master that his order had been obeyed." —Columbia (Ky.) American Securities Abroad.

The sales of American securities have been, according to London advices, very large abroad of late and there appears to be a tendency toward increase in the sales. If this state of things holds, there will be an increasing influx of British gold into this market. This is good news and demonstrates the faith abroad in the stability of our credit. There is another point of faith for which the people not only of this but foreign countries have good grounds for credence, and that is, belief in the efficacy of Hostetter's Stomach Bitters for inorganic maladies which effect the stomach, liver, bowels, kidneys and nerves. Dyspepsia, biliousness, constipation, rheumatism and a tendency to insomnia, are counteracted and conquered by it. It rallies failing appetite, hastens convalescence, and diffuses a warmth and sensation of physical comfort through the system. A wineglassful before retiring promotes health-yielding slumber.

All Quiet in Havana.

WASHINGTON, April 7.—A telegram received at the state department late this afternoon from General Lee reported everything quiet in Havana. General Lee thinks it probable that all Americans in Cuba who desire to leave the island will be able to do so unless something unexpected should happen suddenly to prevent them by Saturday when he will depart himself for the United States.

GETTING READY

Every expectant mother has a trying ordeal to face. If she does not

get ready for it, there is no telling what may happen. Child-birth is full of uncertainties if Nature is not given proper assistance.

Mother's Friend

is the best help you can use at this time. It is a liniment, and when regularly applied several months before baby comes, it makes the advent easy and nearly painless. It relieves and prevents "morning sickness," relaxes the overstrained muscles, relieves the distended feeling, shortens labor, makes recovery rapid and certain without any dangerous after-effects.

Mother's Friend is good for only one purpose, viz.: to relieve motherhood of danger and pain.

Our Consuls Coming Home.

KINGTON, Jamaica, April 7.—The agents of the steamer Brookline have advices from Santiago De Cuba, province of that name on the south coast, which sailed at 6 o'clock this evening with the United States consul, Pulaski F. Hyatt and others and is due at Port Antonio, Jamaica tomorrow.

The Boston Fruit company's steamer Beverly, Captain Anderson, arrived at Cienfuegas, province of Santa Clara on the south coast to-day and is preparing to sail with the United States consul, Owen McGarr, and other Americans for Boston touching at Key West.

Both steamers were chartered with great haste by United States Consul Louis A. Dent, of Kingston who went by special train to Port Antonio. The local bank opened out of hours to supply gold.

The British consuls at Santiago De Cuba and Cienfuegos will represent American interests during the absence of the respective United States consuls.

Empire House Loss Adjusted.

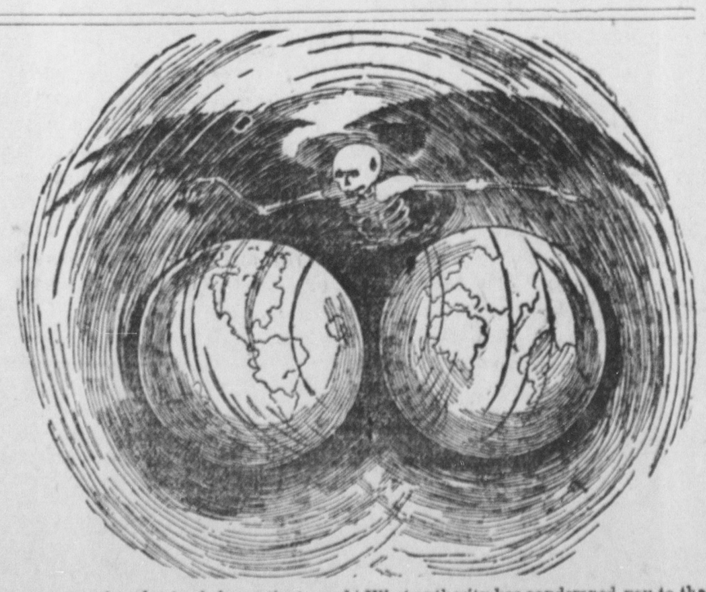

The loss to the Empire House at Tyrone by the recent fire has been adjusted and the proprietor. Allen S. Garman gets $1,859.93 for damages to his building. The loss upon the personal property of the Messrs. Baumgardner and McGowen has not yet been adjusted. Soon as the adjustment upon the building was completed Friday, the work of repairing was commenced and it now progresses with all haste. A new roof is being put on, and all the repairs will be completed in a short time, and the hotel will then be reopened under the capable management of Mr. Garman.

—Thomas Hosterman, of Woodward, this county, has bought a bakery at Selinsgrove and will move there at once.

UNDER BLACK WINGS

Neither Love Nor Duty Can Stay the Suicide's Hand.

Three Women, High in Washington Society, Kill Themselves Because They Believed Health was Gone From Them Forever.

"Opening his mouth wide, he brusquely thrust the pistol-barrel into the very bottom of his throat and pressed upon the trigger."

Of course the shot killed him. He had been challenged to a duel, **and the fear of death drove him to suicide.** Guy de Maupassant, the great French writer, tells the story. This is no mere fancy of a novelist. It is a dreadful, eternal truth. Men and women, living under the shadow of Death's black wing, fling themselves into the arms of the very enemy they dread. See the proofs of this in the matter-of-fact newspaper reports. Note that in a great city half-a-dozen persons will, in a single day, take their own lives. Why? Various motives are assigned, such as disappointed love, financial ruin, actual or impending disgrace and thwarted ambition. The most prevalent reason is not dwelt upon, except in rare cases, because to the unthinking reader it is less impressive than the others. Yet the fact that sufferers from real or imaginary disease, despairing of a cure, take their own lives, is the most appalling of all the doleful facts connected with suicide. Within a few weeks three women, moving in the highest society in Washington, killed themselves because they saw no hope of overcoming disease. They had struggled and hoped until struggle seemed vain and hope a mocking delusion. One day the shadow of the black wing was so near that it blotted out all the joy and sunshine of the world. The next day's papers told of a historic family's awful affliction.

Ailments leading to self-murder are roughly divisible into two classes: those that are mostly fanciful and proceed from ill-regulated nerves, and those of which the symptoms are misunderstood by patients and physician. In the pitiless struggle for existence the sick are at an awful disadvantage. They are trampled under foot like lame wolves in the rush of their strong and hungry fellows. Small wonder is it that the invalid, gloomily reflecting on what he believes to be his hopeless state, resorts to pistol or poison; to the rope or the river.

A few dry words from his doctor have fallen on his ear like a death-sentence. In some medical book the sufferer has read of deadly diseases with symptoms such as he noted in himself. He concludes he has some disease he has read about, an inference as natural as it is unwarranted. Pride, duty and love are powerless to hold the suicide's hand.

Among the readers of this article may be some who have pondered long on the question whether a sick life is worth living, yet have not reached that pitch of despair when they would push themselves across the line between time and eternity. To them a few words of simple, temperate common sense. How do you know that you cannot be as well and strong as any of your neighbors? What authority has condemned you to the bondage of disease? Your doctor, and possibly the doctor whom he called in consultation. But they are busy general practitioners who treat all sorts of maladies. Don't give up the fight until a specialist, trained for years in the study of just such cases as yours, has heard all about you. The Warner Nazaro Medicine Co., 220 Broadway, New York, has arranged to place the most skilful special treatment within the reach of everybody. No matter what part of your body is affected; no matter how long you have suffered, the highest talent and the widest knowledge in the country are at your disposal. With obstinate diseases of lungs, nerves, blood, stomach, liver and kidneys the company's Board of Physicians has been most successful. Correspondence is invited from women who are victims of disorders peculiar to their sex, and from men whom ordinary measures have failed to rid of old troubles. A carefully arranged symptoms blank will be sent you for the asking, which will enable you to fully and accurately describe your disease. Write for this today.

A Very Costly Book.

HARRISBURG, April 5.—When Governor Hastings arrived home from the Pacific slope he found a curious tale awaiting him. The legislature of last year authorizes the reprinting by the agricultural department of a pamphlet on the "Diseases and Enemies of Poultry," covering 128 pages and prepared by Dr. H. B. Warren, economic zoologist, and Dr. Leonard Pearson, state veterinarian. Dr. Warren's portion of the pamphlet covered forty-nine pages and Dr. Pearson's seventy-seven pages. During the governor's absence his private secretary Lewis E. Beitler, discovered that the work which is being done by former State Printer Busch under his old contract had been enlarged to 1,000 pages, of which Dr. Warren contributed 925 pages and Dr. Pearson his original number. Dr. Warren's portion of the pamphlet had been enriched by the insertion of 101 beautifully finished plates of the birds and beasts of Pennsylvania. Some have as high as sixteen colors and there are eight half-tone pictures of Pennsylvania scenery. The original edition of the pamphlet cost $488,24, while the total cost of the proposed edition was estimated by the state printer to be $43,200, or an everage of $3.50 per copy. The entire cost of the proposed edition is 109 times the cost of the original edition.

Mr. Beitler conferred with Secretary Martin and on his advice, by authority of the governor, at once put a stop to further printing although almost all of the press work with the exception of Dr. Pearson's portion had been done and the book was virtually awaiting binding. It was also found that the order for the printing had not been given by Secretary Edge, the head of the department, but by Drs. Warren and Pearson. The copy for the enlarged volume was not sent to the superintendent of public printing as is the custom but direct to M. Busch, the contractor for the printing.

The facts were laid before Governor Hastings when he arrived home, and he placed the matter in the hands of the attorney general, who advised him today that the resolution furnished no warrant for printing such a book; that the expensive colored plates are unwarranted; that the treatise on fish, game and birds of the state is irrelevant matter; that it did not contemplate or authorize the expenditure of $53,000; that the volume prepared is without the authority of law, and its printing was never authorized by the head of the department.

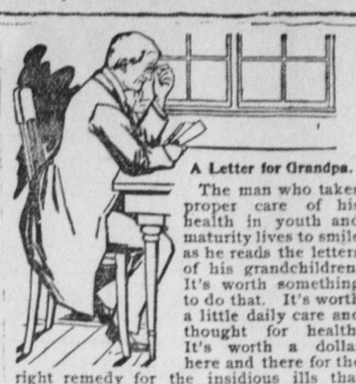

Secretary of Agriculture Edge today by authority of the governor ordered the reprinting of the original pamphlet at thirteen cents each. Dr. Henry T. Fernald, of State College, was today appointed to the position of economic zoologist made vacant by the resignation of Dr. Warren.

Winter Constellations.

The winter constellations, which for several months have so brilliantly lit up the nocturnal skies, are gradually passing away, making room for those which are heralding the genial season of spring and summer. Andromeda has sent, and the splendid constellations of Orion and the two dogs are on the point of sinking beneath the western horizon. The principal constellation that about 9 o'clock in the April evenings will be on or very close to the meridian are Leo and Hydra. Leo, or lion is a fine constellation and the fifth of these that constitute that light belt, the zodiac, within which the sun and moon and planets perform their motion amongst the stars. North and south of Leo there are two constellations of modern origin—Leo Minor, or the lesser lion, in the north, and Sextans, or the Sextans, in the south, Hydra, or the water serpent with Crater or the cup and Corvus, or the Raven, all of which really form one constellation, extends over a large space, and, though important, is not distinguished by any star that might be called brilliant.

In the northeast a star may be seen rising higher and higher, the exuberant splendor of which cannot fail to arrest the observer's attention. This is the beautiful star Arcturus, the brightest fixed star north of the equator and the fourth in the whole list of the stars of the first magnitude.

—Dr. J. Furey Palmer, of Omaha, Neb., a native of this county, where he has many relatives, is reported to be so seriously ill that his recovery is not expected and it is thought that he will not survive long.

A Letter for Grandpa.

The man who takes proper care of his health in youth and maturity lives to smile as he reads the letters of his grandchildren. It's worth something to do that. It's worth a little daily care and thought for health. It's worth a dollar here and there for the right remedy for the insidious ills that make the big diseases.

When a man's liver is "out of whack" or his digestion is bad, or his appetite "finicky," he should take Dr. Pierce's Golden Medical Discovery. It makes a man "hungry as a horse." It fills the blood with the life-giving elements of the food a man takes. It is the great liver invigorator. It makes the digestion perfect. It is the great blood-maker, flesh-builder and nerve tonic. It drives all impurities from the system. It cures nervous prostration, bilious complaints, malarial troubles and 98 per cent. of all cases of consumption. The medicine dealer who offers a substitute for the sake of a few extra pennies profit, is dishonest.

"Would have written you before now, but thought I would wait until I got entirely well," writes Mrs. Mary Tibbs, of Hitchcock, Galveston Co., Tex. "Now I am pleased to say that I am sound and well. I have been using Dr. Pierce's Golden Medical Discovery, the 'Favorite Prescription' and 'Pleasant Pellets.' We think your medicines the best in the world. I was troubled with female weakness, headaches, cold feet and hands, a disagreeable drain and general weakness; was exceedingly nervous, had poor appetite, constipation, distress in the stomach, too much flow, falling of internal organs, of two years' standing. Three bottles of 'Favorite Prescription' and three of 'Golden Medical Discovery' completely restored my health."

Constipation and biliousness are nasty, nagging disorders that keep a man or woman dull and miserable. Dr. Pierce's Pleasant Pellets are a sure, speedy, permanent cure. One little 'Pellet' is a gentle laxative and two a mild cathartic. They never gripe. Dealers sell them. Nothing is "just as good."

Summary of the Cuban News.

Consul General Lee will leave Havana today, it is believed.

Carlists will aid Spain in event of war.

In London it is thought Spain holds the key to peace or war since President McKinley's policy is made up.

Minister Woodford says Spanish people are growing more sober.

The Queen Regent of Spain still hopes for peace.

The Republican Congressional Steering Committee met to discuss the Cuban question.

Commodore Schley says the new flying squadron can successfully cope with any fleet Spain owns.

Final preparations were made yesterday by the Pennsylvania Reserves for active service.

For the first time in thirty years the New York Stock Exchange was open on a Good Friday.

The President's message will go to Congress at noon on Monday.

Spanish Consuls are rapidly leaving the United States.

In Heart Disease it Works Like Magic.

For years my greatest enemy was organic heart disease. From uneasiness and palpitation it developed into abnormal action, thumping, fluttering and choking sensations. Dr. Agnew's Cure for the Heart gave instant relief, and the bad symptoms have entirely disappeared. It is a wonder-worker, for my case was chronic."—Rev. *L.* S. Dana, Pittsburg, Pa.—37.

—The Daily Journal, of Philipsburg, one of the brightest little papers that finds its way to our editorial table, has entered its 11th volume showing increased strength and vigor. The people of Philipsburg give it hearty support both in subscriptions and advertising and it well deserves their patronage. We hope its prosperity may continue and that it may have many happy returns of the day.

April Wisdom.

Be sure that your blood is pure, your appetite good, your digestion perfect.

To purify your blood and build up your health, take Hood's Sarsaparilla.

This medicine has accomplished remarkable cures of all blood diseases. It is the One True Blood Purifier.

Hood's Sarsaparilla has power to make you well by purifying and enriching your blood, giving you an appetite, and nerve, mental and digestive strength.

The fighter and the man of peace,
The merchant and the clerk,
The patriot who loves the flag,
The man who means to shirk,
The soldier who would glory win,
The tramp with naught to lose,
Are all aroused as ne'er before,
And asking: "What's the news?"

What is Blood Poverty?

Blood-poverty is want of red corpuscles in the blood, due to defective nourishment of the blood, brought about by imperfect or bad digestion. A positive cure for this ailment is Dr. John W. Bull's Pills, a surpassing digestive tonic and an excellent blood-maker. Dr. Bull's Pills come sixty in a box; cost but 25 cents; trial box, 10 cents, sold by all dealers, or by mail. A. C. Meyer & Co., Baltimore, Md. Accept only Dr. John W. Bull's Pills.

An Important Opinion.

The dairy and food department yesterday received $110 as fine for violation of the pure food laws at Scranton and Reading. The suit in the latter city was brought for adulteration of mustard. Judge Ermentrout holds in his opinion on the case that mustard was an article of food. This is one of the most important rulings on department work for years. The suit at Scranton was based on impure pepper.

No-To-Bac for Fifty Cents.

Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, $1. All druggists.

—Pensioners will shortly receive blanks from the department at Washington calling for information regarding their marriage relations. The data is to be filed at Washington and will be used when widows' and orphans' pensions are applied for after the soldiers' death. The system was originally inaugurated several years ago, but complete returns were either not received at the department or were not properly filed. The object was simply to get the soldier's own statement regarding his social relations.

LEE AT HAVANA

Report That He Sailed for Key West Is Denied.

NO INSTRUCTIONS TO GO

A Cablegram States He Is Feeding 2,000 Americans and It Would Be Impossible to Get Them Away Before Sunday.

OTHER STEAMERS ARE BUSY

KEY WEST, April 6.—The report that Consul General Fitz Hugh Lee arrived here on the Mascotte is incorrect.

HAVANA, April 6.—The Mascotte sailed this afternoon with a full complement of passengers, among them many distinguished families. During the last twenty-four hours there have been issued 383 passports to persons proceeding or about to proceed to the United States.

The attitude of the public is one of quiet expectancy. The order maintained in the city is admirable. Consul General Lee assures the correspondent of the Associated Press that he has received no instructions to leave Havana. It is reported, however, that some of the consular records were sent north by the Mascotte to-day. She is expected back from Key West on Friday, and with the Bache, Mangrove and Fern there will be accommodations then to take away all who are entitled to go.

To-morrow, Holy Thursday, and the next day, Good Friday, will both be religiously observed in all quarters. No business of any kind will be transacted and even carriages cabs and street cars will be forbidden on the streets. In the main town no bells will be allowed to ring until Saturday after the singing of "Gloria in Excelsis Deo" to-morrow. This applies to bells and city clocks. Even ladies must visit the monuments on foot, and it is possible that telegraphic communication may be cut off on account of the holy day.

WASHINGTON, April 6.—At the request of the president Representative Hopkins, of Illinois, took Representatives Berry, democrat, of Kentucky, a member of the foreign affairs committee; Mr. Sayers, of Texas, the ranking minority member of the appropriations committee; Mr. Dinsmore, democrat, of Arkansas, the ranking member of the foreign affairs committee, and Mr. Newlands, silver republican, of Nevada, to the white house this afternoon and showed them General Lee's cablegram. The cable said that General Lee was feeding 2,000 Americans and it would be impossible to get them out of the island before Sunday. He said the condition of affairs was inflamed and the transmittal of the message might precipitate trouble. The president frankly explained the situation. He said the message would have gone in to day had it not been for General Lee's cablegram. The safety of American citizens in Havana and especially General Lee's personal safety rendered delay imperative. The democrats all expressed themselves as satisfied.

The April Storm.

WILLIAMSPORT, Pa., April 5.—The mercury here dropped several degrees this morning, but the snow storm was of short duration.

JOHNSTOWN, Pa., April 5.—A cold wave struck this place this morning. Snow fell most all day. To-night a regular winter gale prevails, up in the mountain. It beats the record since the centennial year.

SCRANTON, Pa., April 5.—Snow began falling here about 6 o'clock this morning and at noon there were two inches on the ground. This afternoon there was another snow flurry with a high wind with the thermometer at 29 degrees.

PHILADELPHIA, April 5.—A snow storm of unusual severity prevailed in this city to-day. The snow began falling before daylight and continued until the middle of the afternoon. In addition to the snow a northeast wind, blowing at the rate of thirty miles an hour, added to the general discomfort. When the snow stopped falling the sky remained overcast and it grew colder. Late to-night there is every indication of rain and freezing weather.

Reports from Delaware Breakwater and Cape Henry state that heavy rain prevails along the southern coast, while between the Delaware capes and at Sandy Hook snow is falling.

Father of a Baby Boy.

Mr. Harry Lose the popular young baker, is walking around the street as if he was treading on air and his heart is as light as the bread he bakes. The reason of all this is that on last Thursday night his wife presented him with a bright, bouncing baby boy. Both mother and babe are getting along finely and Harry is as happy as a big sunflower Can you blame him? Congratulations are now in order.

Danger From Yellow Fever.

Medical men and state boards of health are considering with grave anxiety the menace to the public health which would oe one of the results of a war with Spain, since the presence of our troops in Cuba and the rapid intercommunication which would be necessary would make it almost impossible to prevent the introduction of yellow fever into the United States during the summer months.

Miss Maggie Hannah

DANVILLE, ILL.

Long Suffering from Headache Cured by Dr. Miles' Restorative Nervine.

HEADACHES are the bane of woman's life. Frequently relieved but seldom permanently cured, the ultimate result is continual misery. Miss Maggie Hannah, 521 Chestnut St., Danville, Ill., says in June 1896: "I cannot add to my testimony of last year except that I am well and strong. Two years ago I had such a pain in my head that I ate nothing, was desperately nervous and could not sleep. Other complications peculiar to my sex set in and our physician called another in consultation. They decided I had consumption and must die. I commenced taking Dr. Miles' Restorative Nervine and the second night obtained the first nights real sleep in four weeks. I know that Dr. Miles' Restorative Nervine saved my life.

Dr. Miles Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

He Died Wealthy.

William Sweitzer died about ten days ago at Washingtonville, Montour county. He was considered a well to do man and a man who had some little money, but no one thought William Sweitzer was rich. He had no family but lived by himself, keeping bachelor's hall. The Sunbury Daily says that after his death on examining into his affairs it was found that William was quite wealthy. How much no one knows, but it is reported that the amount will run up to fifty thousand dollars. He had money hid all over the house, as he did not trust the banks. In an old fashioned belt that he carried around his waist was found a large number of bills. He had strips of bills—shinplasters they were called during the war—in sheets as they came out of the press. He had a brother, Thomas, formerly of Sunbury, and whose family live there yet.

—The best April fool trick, that we have heard of, was perpetrated on one of our business men last Friday, says the Millheim Journal. A young boy took a penny and quartered it. He went into a store and asked for a quarter's worth of candy. The merchant said to the boy, "Do you want 25 cents worth?" "No" said the boy, "I want a quarter's worth." The candy was weighed out, and handed to the boy, and he laid down one of the quarters he had cut out of the penny and left the store, remarking "April fool!" He then divided the candy among his playmates. That boy will make his mark if he lives. We give no names.

Rode Into the Toll Pole.

Edward Confer, a Millheim wheelman was on his way from Aaronsburg to his home, Monday evening, Apr. 4, when a dog ran onto the road and chased him. He began scorching to keep ahead of it, and having his head down he did not notice his approach to the toll house, where the pole was down, just on a line with his face. He was riding at high speed when he crashed into the pole and nearly knocked his head off. He fell from the machine and was unconscious for half an hour.—Watchman.

Andree Story is False.

VICTORIA, B. C., April 7.—The story told by Carr, the United States mail carrier, that he had news from Andree, the balloonist, proves to be a "fake" pure and simple.

Carr got the idea from a little paper published in St. Michael's, which recently published a highly improbable story regarding the missing aeronaut.

Evidences of the decadence of the silver proposition come from Toledo, where a gold Democrat has been made chairman of the campaign committee and, according to the Toledo Commercial, "On the whole committee there is not, we believe, a single 16-to 1 Democrat."

New Horse Shoe and Calk.

Have you seen or heard of the Neverslip Horseshoe and calk? As the name indicates, it is intended to prevent horses from slipping,—either on ice, on grass, or any sort of smooth surface. It is meant to enable the animal to get a grip with his feet every time he is required to pull. For in proportion as he fails to do this, he is useless.

The Neverslip shoe is as good a shoe as can be made. The Calk is inserted by the thread—screwed in with a wrench made for the purpose. Your blacksmith puts on the shoe and inserts the calks—using size of calk adapted to weight of horse. After that you can put them in yourself, and when worn, remove them and replace with new ones. It is only a matter of twenty minutes for all four feet. Your horse is then immediately sharp shod without leaving the stable; a manifest advantage of a morning after a sudden freeze-up. Better than waiting two or three hours at the shop and cheaper. The cost of keeping a horse shod *and* sharp by this method is a *fraction less than one-half* cost by the old method. It is so easy to insert and remove the Neverslip Calk that you don't let them wear down as you let the old calks do. And then by keeping the calks long you keep the shoe off the ground and so save wear. The Neverslip Calk does not work loose nor rust fast. By using Neverslip Calks, a set of Neverslip shoes will outlast two to three sets of the old shoes during the winter.

Ask your blacksmith for them.

Scrofula

Face Broke Out With Sores—Weak and Sickly Until Hood's Sarsaparilla Made Him Well.

"My little son was afflicted with scrofula sores and he was weak and sickly. Our physician recommended Hood's Sarsaparilla and I bought a bottle. Before he had taken all of this bottle his face began to break out with sores and one side of his face was nearly all one solid sore. I continued giving him Hood's Sarsaparilla until he had taken two bottles. The sores were then healed and he has been well and hearty ever since." Z. W. SMITH, Big Shanty, Pennsylvania.

"Everything I ate seemed to produce gas in my stomach. I was growing worse and friends advised me to take Hood's Sarsaparilla. When I had taken four bottles I was able to eat and feel no distress. I could attend to my household duties without the fatigue I formerly felt." ADA MCVICKAR, White Hall, Pa.

Delegate to State Convention.

The friends of John M. Dale, Esq. are urging him to be a candidate for delegate to State Convention, subject to the approval of the Republican county convention, and we understand that Mr. Dale has consented to serve his friends in this capacity. The convention could not do better than to send him as their representative. He is an old time Republican, always true to the best interest of the party and will serve them to the complete satisfaction of everyone.

Mr. James E. Reilley, a very pleasant and genial young man and also one of the finest and fastest double thick glass cutters to be found in the Glass-workers Union is now employed at our glass works. WASHINGTON LETTER.

From Our Regular Correspondent.

Washington, April 11, 1898.

On to Cuba! That is the order that will be issued the minute that Congress acts upon President McKinley's recommendation for armed intervention for the purpose of driving Spain out of Cuba, and there will be no delay on the part of Congress in adopting the resolution that will place the authority in the hands of the President to use the army and navy of the U. S. to force the Spanish out of Cuba. Proclaiming an armistice in Cuba was a trick worthy of Spain, but it failed to bring the delay at the Washington end that Spain expected. Unless there is some unexpected delay, our warships will be demanding the evacuation of Cuba with shot and shell before the close of the present week. The Spanish will, of course, have a chance up to the last minute before the shooting begins to peaceably surrender Cuba, but there is now nothing in sight to indicate that they will get out until they are forced out.

In intervening in Cuba this government has no intention of making a war of conquest, but in the language of President McKinley is merely endeavoring "to fulfill a duty to humanity by ending a situation the indefinite prolongation of which has become insufferable." Therefore whether the war will go further than is necessary to drive the Spanish out of Cuba will depend upon the Spanish themselves. While the official plan of operations is not known outside of those who are intrusted with the duty of carrying it out, it is understood that the initial naval demonstration of this government will be made against Cuba alone, and that no hostile movement against the Spanish colonies in the Phillipina Islands, the Canary Islands, or Por to Rico wil be made unless the opposition of the Spanish navy to our taking possession of Cuba shall make such steps necessary.

There is an impression among naval officers that if Spain does not make an abject surrender before the fighting begins, it will throw up the sponge before we can get an opportunity to completely destroy its navy, and call upon the European powers to arrange some sort of a peace for her. It is thought that the distribution of the Spanish navy indicates that an attempt will be made by her fastest ships to attack some of our seac oast cite n to avoid battle with us unless they can catch some of our ships in positions where they can be overpowered and either sunk or captured. Naval officers will be surprised if Spain places any portion of her navy where it will come into contact with the powerful fleet that we will send to invest Cuba.

Sixty days is the outside guess of our naval officers as to the length of war.

Gen. Blanco did not improve the relations between Congress and Spain when he made a discourteous monkey of himself by refusing to see consul Gen. Lee when he called to say an official good-by just previous to his departure from Havana. It is likely also that Gen. Lee may have some stories to tell when he reaches Washington that will likewise add to the existing enmity towards the Spaniards.

An informal agreement has been reached by the House Committee on Ways and Means, which has been considering the matter for several weeks, that the war revenue bill to be reported to the House as soon as hostilities shall include a provision increasing the internal revenue tax on beer from $1-to $2-a barrel, notwithstanding the arguments of the representatives of the brewers who were granted hearings last week. It is estimated that this increase in the beer tax will add $35,000,000 a year to the government's revenues. Tobacco, in its various manufactured forms is relied upon to produce as much more; likewise a tax on several kinds of commercial paper. A bill has also bee prepared by Chairman Dingley providing for the issue of bonds to the amount of $100,000,000, as a temporary loan, and from three to five times that amount, as may be needed, as a permanent loan. These bonds will be payable in coin, just as all our outstanding bonds are, and are to bear 3 per cent interest. Although offers of more than $1500,-000,000 have been made to the government by large financial institutions, it is probable that any bonds issued will be offered to the public and allotted to those who first apply for them, at their face value.

Although couched in the most moderate language, President McKinley's reply to the joint note of the six greatest European nations, on our relations with Spain, will take its place in history alongside of the Monroe doctrine, There was no word of bluster, but every European power understood its meaning perfectly—that the U. S. had determined that Spanish rule in Cuba should cease forever, and that no European interference with its policy would be tolerated. The representatives of at least two European powers—France and Austria—and possibly those of a third—Italy—had hopes of arranging some sort of European joint intervention, but they abandoned them after hearing Mr. McKinley's reply to the joint note which was intended to be a friendly feeler.

EARNED NOT BOUGHT.

Staying power Counts in a long and Stern Race.

Bellefonte people need not be told how hard it is to earn and maintain a good reputation, and how easy it is to lose one. After such a loss it is well nigh impossible to recover the ground and the majority who have slipped by the wayside have been forced to stay there. As with a reputation so it is with medicinal preparations. Some achieve a reputation that stays with them. It is founded on intrinsic merit and not sustaine by elaborated advertising. It faces the public backed up by honesty and works its way quietly but thoroughly. Bellefonte people want no better proof of the reputation earned by Doan's Kidney Pills than the following experience from a citizen.

A prominent Hotel man in Bellefonte says: "I have not changed my mind regarding Doan's Kidney Pills which did me so much good over two years ago. What they did for me was done permanently. At the time they relieved me of a depressing backache and lameness across my kidneys and I can recommend them as ardently now as I did then. I have never had the severe pain in my back since, Doan's Kidney Pills are all right."

Just such convincing proof of the claims made for Doan's Kidney Pills is plentiful in Bellefonte. Drop into F. Potts Green' drug store and ask him what his numerous customers say.

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no substitute.

Undine Ball a Grand Success.

On Monday evening the Undine Fire Company gave their annual Easter assembly in the new armory on Spring street. The young men have for the last month or so been laboring zealously to make this ball the finest ever held by this company, and we are glad to say that success crowned their labor and toil.

Promptly at half past nine the famous Undine orchestra began playing a very pretty selection. It was not long until the floor was filled with young ladies and gentlemen, ready for the grand march. Mr Joseph McMahnn and his sister Miss Celia led this march in an admirable way, followed by several hundred more. During the evening splendid refreshments were served which helped the occasion to be more successful.

The committee who deserve so much credit, are the following young men Messrs Joseph McMahon, Benjamin Hoffman, Bruce Garbrick, Harry Lose, John Houser, Harry Parks, and William Smith. We wish also to congratulate the young men on the splendid conduct which they had last evening. It was not as was predicted on the bulletin in the Watchmen window.

AXE MANN ITEMS.

In these lines you will find, nothing to interest the blind.

Quite a number of our young folks attended the Easter services at Pleasant Gap on Sunday evening.

Messrs Newton and Perry Stelle left for Mill Hall last Saturday, where they have a contract masoning.

Preaching Services will be held in the M. E. Church on Sunday evening at 7:15 by Rev. Stuart.

The exceedingly warm weather is pretty rough on some of our young folks as they are not accustomed to it.

Most of our farmers are very busily engaged in ploughing, and at the same time saying it is written "you shall eat bread by the sweat of your brow."

Mrs. J. W. Ott, and children visited friends at Linden Hall during the past week.

Mr. Harry Harter has been improving his residence for some time past by putting an addition, to, repainting and different other necessary improvements which, tend greatly to beautifying his home.

Mr. E. E. White left for Mill Hall on Monday morning where he has secured employment.

Mrs. Koch, who has been seriously ill since the death of her husband is improving slowly.

Mr. W. H. Ott and wife visited relatives at Pleasant Gap several days last week.

Miss Lizzie Burras is ill at her home. Dr. Fisher is in attendance, but we failed to learn what was the matter.

Several of our young folks are attending the summer school at Pleasant Gap, which is being conducted by Prof. Ginder of Lehigh.

Mr. W. S. White started out with his Traction Engine and Crusher on Tuesday; he expects to crush stone at the mountain for the Pike Company.

A young daughter arrived at the home of James Hazel last week which accounts for the broad smile James is wearing.

Fearful Accident to a Child.

On Sunday evening a very painful and sad accident happened at the home of Mr. and Mrs. Harry Wagner, living in the house just opposite the Brockerhoff mill at Roopsburg.

It was about nine o'clock in the evening. When Mr. and Mrs. Wagner were sitting in the parlor reading and their little son, Earnest, was sitting on the floor playing. The child is only fifteen months old and naturally for a child of that age it would grab for everything within its reach. It was near the table which had a chenille cover upon it that hung nearly to the floor, and the little one not knowing the danger that awaited him, took hold of the cover, and pulled the lamp, table and all its contents upon himself.

The vessel of the lamp broke and threw the oil, which had already ignited over the little boy and his father. The result was the child's arms, face and chest are burned nearly into a crisp, and it is very doubtful whether it can live, as the pain is excruciating and it takes one convulsion after another. In putting out the fire, Mr. Wagner, burned his hands and face very badly.

It Will Surprise You.

CATARRH SIX YEARS.

Grew Rapidly Worse—Doctors Did No Good

Mrs. Adam Staats, Mequon, Wis., in a recent letter to Dr. Hartman, writes: "I write this letter because of my sympathy for the suffering people. For six years I suffered with chronic catarrh. Whenever I caught a little cold I would have a severe spell of sickness. I used different catarrh medicines and the doctors did all they could, but the relief was only temporary. In December, 1897, my condition became very bad. I could not speak aloud; I had a terrible cough, profuse expectoration and frequently spit blood; nights sweats and extreme emaciation. I was sure I must die of consumption. The catarrh seemed to have spread all over my body; my head, throat nose, bladder and womb. At this time I received a book concerning Pe-ru-na. I immediately wrote to Dr. Hartman, who prescribed Pe-ru-na and Man-a-lin. I followed his directions strictly. I began to improve with the first bottle, and during the time that I took the medicines I gained twenty pounds. I feel as well now as anyone could possibly feel. I am sure I would have been dead long ago had it not been for Dr. Hartman's advice and medicine.

Every woman should have a copy of Dr. Hartman's latest book entitled "Health and Beauty." Sent free by The Pe ru na Drug Manufacturing Company, Columbus, Ohio.

TALK OF MADRID!

There is Much Condemnation of Cabinet's Action.

MILITARY CIRCLES EXCITED

Each of the Big Madrid Newspapers Has an Opinion of the Latest Diplomatic Move—Some Are Violent.

WOODFORD AND GULLON CONFER

MADRID, April 9—MIDNIGHT—[Delayed in Transmission],—The general talk of the town to-night, especially in military circles, condemns to-day's action by the cabinet and predicts trouble, but there is reason to believe that forty-eight hours will see a general endorsement in Madrid and throughout Spain of the "peace with honor" rule.

MADRID, April 10.—Senor Candepon, minister of the interior, has issued a circular to the prefects giving an account of the situation, which, he explained had been arranged at the request of the pope and under the counsel of the great powers and which, while saving the honor and military dignity of Spain, preserves her rights in the Grand Antilles. United States Minister Woodford, in a conference last evening with Senor Gullon, minister of foreign affairs, expressed his satisfaction with the arrangement.

El Impurcial says that Lieutenant General Correa, minister of war, in a conversation with several people, expressed himself as follows.

"It is an error to say that the government has granted an armistice to the rebels. I would never give that before leaving the ministry because it would be the same thing as recognizing the belligerency of the rebels. The government has granted the wishes of the powers that we should cease hostilities during the delay which General Blanco judges prudent for preparing peace. I acceded to a cessation of hostilities, because to refuse the wishes of the powers would be to divorce Spain from the world.

El Liberal says that effective military measures were taken last evening in this city in view of possible disturbance; that the garrison officers slept at the barracks and that the government offices were protected with additional guards.

El Globo (liberal) devote its leading editorial to telling the nation that the government has carried out Spain's wishes under the circumstances, yielding only to the voice of united Europe and not to the United States. It says: "Europe will now support Spain should the United States continue to aid the insurrection. Spain is stronger than ever."

MADRID, April 9—6 P. M. A visit of the foreign ambassadors to Senor Gullon, minister of foreign affairs, resulted in a meeting of the cabinet, at which a decision was reached to grant an armistice to the insurgents in Cuba.

United States minister Woodford has been officially informed that the Spanish government today telegraphed to the pope that in view of the urgent request, fortified today by a visit from the representatives in Madrid of the six great powers, they (the Spanish government) have telegraphed to General Blanco in Cuba, instructing him to issue an armistice proclamation to-morrow, the declaration of the armistice to be as he decides.

The general opinion this evening is that today events settle satisfactorily the first stage of the Spanish-American difficulty and insure peace.

The ministers upon being questioned by the reporters refused to give any information regarding the negotiations, but it is understood they are based upon an armistice and the withdrawal of the American squadrons from Cuba and the Philippines. If the war is not concluded immediately, the United States is to withdraw all moral and material support from the insurgents.

It is believed that the presentation of President McKinley's message to congress will be again postponed, the Epoca thinks, until Friday next.

El Correo (official) says:

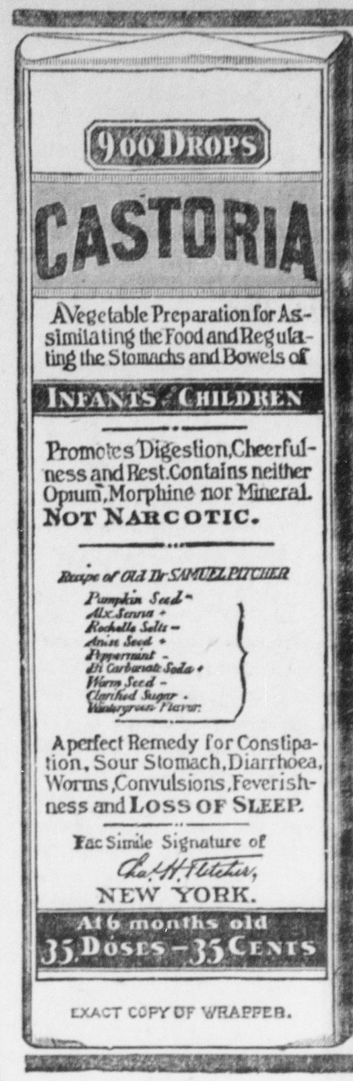

"While America asked for an armistice, Spain refused, but to the voice of Europe and the pope, even Spain, without dishonor, may accept the arrangement proposed in the interests of peace."

Rhode Island's Election.

PROVIDENCE, R. I., April 7,—Following is the approximate vote for governor in the state election, with three districts missing: Dyer, republican, 25,738; Church democrat, 14,537; Reid, socialist labor, 2,092; Lewis, prohibition, 1,661. Following is the complexion of the legislature: Republicans 96; democrats 11; citizens, 1. These figures show that the re-election of United States Senator Aldrich is assured

A Fatal Landslide on Chilkoot Trail.

NEWS FROM MADRID!

Our Minister to Spain Writes to a Friend.

THEN WITHDRAWS THE SAME

Spanish Minister of War Says It Is Better to Fight Foreigners Than Spaniards Who Will Be Indignant-

THE ABINET HELD A MEETING

MADRID, April 7.—The family of General Woodford, which left this city last night, has arrived at Hendaye, on the frontier, and proceeded to Biarritz.

Inquiries show that General Woodford, yesterday, believed that Spain would accept the proposed armistice, and that orders to that effect would immediately be promulgated in the Official Gazette. Other diplomats also expected a satisfactory solution of the crisis, but at the moment when the cabinet council was commencing the minister for foreign affairs, Senor Gullon, received the following letter from the United States minister: "Having fruitlessly awaited since noon yesterday for the decision of the Spanish government, it is my duty to announce to you that I will still wait until midnight. I beg of you to kindly communicate this decision before midnight, and this decision may be couched in terms which may prevent the sad consequences that I should greatly regret but which I believe inevitable if things continue in their present state."

The letter was sent as an intimate communication, for it commenced "My dear friend."

Spain's laconic minister of war, General Correa has at last broken his silence. In an interview the general has given an interesting account of the situation, saying: "War is the better of two evils. It is better to fight foreigners than to fight Spaniards rising in indignation if their honor and rights are trampled under foot.

The guards around the United States legation were trebled today. General Woodford was at his desk at an early hour, and many Americans called to ask about the arrangements made for their protection. The general said he would remain here until directed to apply for his passports, or until they are handed to him. He added that when he leaves the British flag will be hoisted over the United States legation. In spite of the alarming situation and the general belief that the end is about reached, several of the diplomats still hope for peace. The city, thus far, is perfectly quiet.

An extraordinary cabinet council was summoned at 5 o'clock this evening to meet immediately. The council terminated at half past 8. No official note has been issued and all the ministers maintain absolute reserve, declining to give any information. United States Minister Woodford in a note sent to the council declared that when he sent the confidential note yesterday he had not received a dispatch from President McKinley announcing the postponement of the presentation of the message to congress and "as that changes the aspect of affairs he withdraws the statements made in the previous note."

MADRID, April 7.—It is stated that the outcome of the cabinet council is that the ministers considered and replied to a message from Rome delivered late last evening and transacted the current business of the different ministerial departments. One member of the cabinet informed the representatives of the press that the aspect of affairs was more pacific than yesterday. The evening press is warlike in tone, but reports no new facts.

La Nacional reasserts that United States Minister Woodford sent an ultimatum last evening demanding a reply within six hours. The paper concludes its statement by expressing the opinion that war is only a question of days.

La Correspondencia De Espana (independent and semi-official) says: "Spain has yielded until there is nothing but honor left to yield, and in defense of her honor she will go to war."

MADRID, April 7.—United States Minister Woodford today issued a statement to the Spanish press in which he says his wife and niece left for Paris because of Mrs. Woodford's poor health. His daughter, he says, remains with him in Madrid. He says he has received nothing but courtesy from the people of Madrid and has no fear regarding the personal security of himself or family. He says he is working for peace and despite all rumors to the contrary, he still hopes peace will be kept between Spain and the United States and that peace will soon be reestablished in Cuba, based upon absolute justice with protection for the great American interests in that island and the maintenance of the honor of Spain.

Katahdin Sails Under Sealed Orders.

PHILADELPHIA, April 7.—The ram Katahdin left League Island navy yard under sealed orders late this afternoon. The ship's destination will not be known until she gets to sea, but it is believed she will go either to New York or Key West.

Lieutenant Robert G. Peck, who had been detailed for duty on the monitor Lehigh, was suddenly assigned, just before the ram sailed, to the post of navigating officer of the Katahdin, made vacant by the death this morning of Lieutenant David Daniels.

The Katahdin has on her war paint and is prepared to do terrible execution with her ram should the opportunity present itself. The ram's main battery consists of four guns. This is commanded by Commander George F. F. Wilde and is manned by a full crew. This is her first trip at sea since she was laid up at the League Island navy yard over a year ago.

Passover Season.

Many Hebrews will abstain from the use of bread or any leavened food for a period of a week. Instead of bread they will eat "matzos." It is Pesach, or Passover, which began at sunset Wednesday evening. The festival is made the occasion of family reunions, and special and beautiful home service, known as the "Seder," has been observed for centuries by devout Hebrews in all parts of the world, to mark the beginning of the festival.

The feast is observed in obedience to the Mosaic command, found in Exodus xii, excluding, during this feast, all leavened bread.

The rabbinical interpretation of this law makes it necessary to banish all such mixtures from the house, and to put away all dishes upon which such mixtures have ever been served or eaten. Lest the contraband "chometz" may have permeated them, all provisions are disposed of, and only those put up expressly for that time, and bearing the passover seal, may be used. Well-to-do families have separate closets for passover dishes and utensils, which are kept religiously locked during other portions of the year, but among the majority this is the time for casting away all those which have ceased to be useful. New dishes are bought for the special use of the feast, and afterwards serve to replenish the everyday closets. Like those used during other portions of the year, the dishes employed for milk and meat mixtures must be kept separate.

The holiday commemorates the deliverance of the children of Israel from Egyptian bondage, and their departure from the land of their slavery under the leadership of Moses. The meaning of the word pesach is the passing over by the Almighty of the houses of the Isrelites when the first born of Egypt were destroyed.

—We are very sorry to announce that Mr. Webb Karstetter will leave us. Mr. Karstetter has a splendid position as traveling salesman for a large cracker firm. His family will move for the present to the home of Mr. Morris Furey, near town. Mr. Furey is the father of Mrs. Karstetter.

LEE COMING HOME!

Will Leave the City of Havana on Saturday.

GETS AN OFFICIAL ORDER

Several Steamers Leave the Cuban Capital But the Majority of Non-Residents Are Waiting for Peace.

MANY OBSERVED HOLY THUSRDAY

WASHINGTON, April 7.—Consul General Lee will leave Havana Saturday, as a result of explicit instructions from the state department and a reply from him stating that he would sail on the day named.

HAVANA, April 7.—The steamer Mascotte left this afternoon with seventy-four passengers. Many persons are holding back to the last available hour, on the strength of favorable peace rumors.

The Ward line steamer Yucatan arrived this evening, and will leave for the United States to-morrow morning with about fifty passengers.

Despite the fact the day is cloudy, thousands of people have devoted it to visiting the various churches and monuments. To-night the Plaza De Armas and Central Park are crowed with people of all classes, and in both places military bands are playing sacred music.

Trustworthy advices received here Monday night state that Calixto Garcia, after desultory fighting with General Pando in the province of Puerto Principe, had evaded Pando, and with 3,000 men reached the Moron-Jucaro trocha. It is believed by this time General Garcia has crossed the trocha in the vicinity of the plantation San Nicholas and been joined by General Maximo Gomez, and that the combined forces, making fully 4,000 men, are now en route for the provinces of Matanzas and Havana. This is the long-threatened raid.

WASHINGTON, April 7.—The fact that the American case is now one fully made up and that there is no disposition on the administration to change it, was emphasized to-night by absolute quietude at the white house. The vice president and Mrs. Hobart called and passed an hour with the president and Mrs. McKinley. The president passed only a short time in his office after dinner and he had no callers upon official business. He retired at an unusually early hour.

THE BELLEFONTE HIGH SCHOOL

Interesting Exercises by Members of Graduating Class.

Interesting exercises were held at the Bellefonte High school Thursday afternoon commencing at 2 o'clock in which the members of the Class of '98 took part. The room was beautifully decorated for the occasion with flowers and potted plants, and the class colors orange and black adorned the walls.

The exercises opened with prayer by Rev. Dr. Holloway of the Lutheran church followed by singing of "If I were a Sunbeam" by a quartette composed of the following named young men.

Joseph Twitmire, James Shook, Bert Blair and Prof. A. Reist Rutt. The program then proceeded as follows:

"United States as a Naval Power"
Samuel McClure.

"Founding of Pennsylvania"
Miss Stella Gault.

Jersey Shore Herald: The number of bodies interred in the Jersey Shore cemetery for the year ending April 1, 1898, was as follows: Adults, 44; between the ages of 6 and 16 years, 2: under 6 years, 19: total, 65. Sexton McCachran has interred 954 bodies in the cemetery during his nine years of service.

NEW YORK FASHIONS.

Children's Clothing: Shoes: Sailor Suits: Ladies Parasols: Spangled Net: Bereges: Sashes.

The day has past when it pays for private individuals to make childrens's clothes, as it is impossible for them to compete with those who buy or manufacture in very large quantities. As an illustration, an infant's short nainsook dress, gathered full from neck finished with embroidery ruffle, skirt with deep hem, in sizes for six months, and one and two years is shown at 50 cts; another of nainsook having insertion at the centre of yoke, for 59 cts; and a third with three insertions in yoke for 75 cts. Apropos of the little ones a "toe in" shoe has been introduced, and from its construction, compels the child to turn its toes out, without any discomfort whatever, giving the little foot just the correction needed.

LITTLE GIRLS' SPRING CLOAKS

are marvels of beauty and variety, made of serge, flannel, pique, china silk, cashmere or broadcloth, always with a large collar, cut in tabs, or points, tastefully edged and trimmed. A particularly pretty brown broadcloth cloak, has a deep collar slashed into squares, falling over a wider, accordion-plaited pink silk ruffle edged with pink chiffon, and a handsome Roman sash with fringed ends is tied loosely around the waist.

SAILOR SUITS

of blue, rough-finished serge, with white serge shield, covered with fine, narrow soutache braid, edge of collar trimmed with white tape, are brought out with knee pants as well, for boys aged from three to ten years, and the same style comes in smooth diagnonal blue serge. Another pretty sailor suit for children of the same age, is of smooth, diagonal serge in navy blue, light blue, seal brown, and red; rough finished serge, cadet gray cloth or mixed serges. The cloth from which these suits are made is manufactured with a special view to obtaining the necessary weight, and at the same time the strength required for boy's usage. An attractive Russian blouse for boys from three to eight, comes in plain blue and mixed serges, braided or embroidered in various styles. Wash suits are principally of striped galatea, tan cotton, light brown linen, dark brown linen, plain blue linen, navy blue linen with narrow stripe, varying in price from $2.25 to $5.00 according to material. Thanks for information are due Best & Co. of the *Liliputian* Bazaar in West 23rd, St.

PARASOLS DO NOT ESCAPE

the existing furore for tucking, and nine or ten tucks at the edge, or clusters of tucks throughout ornament plain silk parasols, which will "go with anything". Another "fad" in trimming is narrow satin ribbon, and an entire covering of alternate rows in two colors, put on just full enough to form a slight wave is very fashionable or such a border is often seen where the upper part is of rich, brocaded and plaided silk. Black and white parasols are in great favor—in harmony with any and all colors.

ANOTHER OUTDOOR COVERING

comes in a cloth blouse, point at the front and often covered with black braiding, (which in a high class grade) is interwovee with let, a handsome belt giving the necessary finish. Spangled nets rival grenadines for evening or house wear; brought out in circular skirts or by the yard and while the richest styles are very expensive, a pretty one may be had for $18.50, and spangled bodices begin at $3.95. These nets are lined with black taffeta silk and the two skirts hang separately, the outside material being about four and a half yards wide. A substitute is a ruffled skirt of black Brussels net with an "apron front" of spangled net, with a spangled bodice and net sleeves in mousquetaire style. The old-fashioned berege, comes up again in renewed beauty in combinations of satin stripes and floral figures, to be always worn over a lining which embodies the prominent color of the material. Sashes of all kinds are extremely popular, particularly Roman Sashes and Roman ties are shown to great advantage on shirt waists.

Funeral of Jonathan Tressler.

The funeral of Jonathan Tressler, Sr. on Monday, April 4th, was largely attended. Very few live to be as old as grand-father Tressler; he was born in Berks county, in the month of May 1801 and died April 1, 1898, making his age 96 yrs. 10 mo. and 10 days. He had eleven children, fifty grand-children. His body was laid to rest in the cemetery of the Evangelical church. The lot on which the church now stands was donated by him, and the bell which announced his funeral was also donated by him to the church. His wife died about twenty-one years ago.—Reporter.

How to Prolong Life

No man or woman can hope to live long if the Kidneys, Bladder, or Urinary Organs are diseased. Disorders of that kind should never be neglected. Don't delay in finding out your condition. You can tell as well as a physician. Put some urine in a glass or bottle, and let it stand a day and night. A sediment at the bottom is a sure sign that you have Kidney disease. Other certain signs are pains in the small of the back—a desire to make water often, especially at night—a scalding sensation in passing it—and if urine stains linen there is no doubt that the disease is present.

There is a cure for Kidney and Bladder Diseases. It is **Dr. David Kennedy's Favorite Remedy.** It has been for thirty years, and is today, the greatest and best medicine known for these troubles.

Mr. WILLIAM W. ADAMS, cor. Jefferson Avenue and Clifton Street, Rochester, N. Y., says:—

"Three years ago I was taken with Kidney disease very badly; at times I was completely prostrated; in fact, was so bad that a day was set for the doctors to perform an operation upon me. Upon that day I commenced the use of **Dr. David Kennedy's Favorite Remedy,** and it was not long before I was entirely cured, and I have had no return of the trouble since. My weight has increased, and I never was so well as I am now. **Dr. David Kennedy's Favorite Remedy** saved my life."

Favorite Remedy acts directly upon the Kidneys, Liver and Blood. In cases of Nervousness, Dyspepsia, Rheumatism, Ulcers, Old Sores, Blood Poisoning, Bright's Disease and Female Troubles it has made cures after all other treatments failed. It is sold for $1.00 a bottle at drug stores. A teaspoonful is a dose.

Sample Bottle Free! Send your full postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y., and mention this paper, and a sample bottle of Favorite Remedy will be sent free. Every s[illegible] can depend upon the genuineness of this offer, and should send at once.

BUSINESS OUTLOOK.

What R. G. Dun & Co. and Bradstreet Have to Say of It.

THERE IS SOME UNCERTAINTY

However, Scarcely Any Stoppage of Manufacturing Concerns Appears—Exports of Wheat Continue to Be Large.

FAILURES FOR THE PAST WEEK

NEW YORK, April 8.—R. G. Dun & Co.'s weekly Review of Trade will say to-morrow: When everybody is asking whether it is to be war or peace, the state of business is not easy to judge. Since nobody can judge just how wise bankers may be in an emergency, there is some uncertainty, but thus far scarcely any stoppage whatever of manufacturing concerns appears, not any indications that the producing force is likely to be diminished, nor is any such symptom to be seen in business reports. Evidence of existing conditions is not confusing nor unfavorable. So far banking conservatism has not caused failures which continue smaller than for many years as in March, nor has it caused stoppage of any manufacturing concerns, nor lessened the volume of business reported by railroads in tonnage, or clearing at principal points.

The wheat outgo counts for much and continues, at Atlantic exports having been 2,240,172 for the week, against 1,521,122 last year, and Pacific 1,227,574 bushels against 447,585 last year. Since corn exports continue 3,483,659 bushels against 3,323,277 last year, the strength of the demand is not to be attributed to speculative agencies. It is fortunate that western receipts of wheat do not fall short of the extraordinary gain, but are still 1,901,361 bushels against 1,789,110 last year, so that the s of nearly exhausted supplies of wheat are fables for children. The price rose steadily and closed 2c higher for wheat, with corn 1c higher. At the same time the exports of cotton are extraordinary, though just now deferred by the caution which causes larger shipments by rail to New York instead of outside from gulf ports.

In such conditions heavy industrial demands for a great force of operatives have been effective. The truth is that every great industry meets enormous over production compared with corresponding demands in any other year, however prosperous, and yet nearly all are keeping almost their whole force employed, and some are increasing force, Sales of wool are insignificant and prices have declined 2c for finer grades and over 1c in the average for all quotations, only because speculators wholly underestimated stocks held by manufacturers.

In the iron and steel industry, with demands greater than ever before from the government enlarge work but do not advance prices.

Disasters in trade shown this week by separate branches of business for the month of March and also the first quarter of 1898, make the best report that has been possible for five years. It is interesting to note that nearly all branches of business show surprising movement. Meanwhile banks are extremely cautious and commercial loans are but 10 per cent. of their aggregate. The belief that quick expansion in all branches would follow greater liberality and patriotism by the banks is not wholly unfounded, and the heavy receipts of gold from Europe count for little compared with the greater or less liberality in loans by banks. Disturbance does not yet appear, however, and failures for the week have been 232 in the United States against 252 last year, and 32 in Canada against 36 last year.

NEW YORK, April 8.—Bradstreet's to-morrow will say: A sensible quieting of demand for staple goods is perceptible in the various detailed trade reports coming to hand this week. At the east the drift of matters affecting our foreign relations has been such as to discourage new business, but this tendency has been considerably accentuated by unseasonably cold weather, which has checked the usual Easter demand to a considerable extent. Reports from the west are that the heavy rush of spring business is about over and that orders coming in now are of a filling-in character. Here again reports of unseasonable weather are met with. A fairly good business is reported at the south, but a slight check to our export trade is reported, growing out of the rising of freight and insurance rates consequent on the disturbed foreign outlook. Frost is reported to have done considerable damage to the peach and other fruit crops of the south and to early planted tobacco. A fairly satisfactory trade is reported at the northwest. Lake navigation is now open, and anticipations are that a prosperous year's business will be done.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated appetite poor, his teeth rusty his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

Trials of the Married Man.

The melancholy days have come, house cleaning time is here, when zealous women make things hum and home's no longer dear. Up stairs and down, dire chaos, there brooms, mops and slops and suds, whitewash, fresh paint—no lounge, nor chair, nor place to lay your duds. You fall o'er household goods in stacks, eat supper in the shed, then fill your feet with carpet tacks while hunting for a bed.

Thirty-One Killed.

SEATTLE, Wash., April 8.—The steamer Alki arrived to-night with news that a landslide has occurred on Chilkoot trail in which 31 men are known to have been killed and a large number injured.

"MY WIFE'S LIFE."

How I was the means of saving it.

When the lungs are attacked and the symptoms of consumption appear, then begins the struggle between affection and that destroying disease which slays its thousands annually. It is a happy issue to the struggle when disease is conquered and health restored. Such an issue does not always end the struggle, but it did in the case of Mr. K. Morris, Memphis, Tenn., who saw his wife wasting and weakening and physicians helpless, and then suggested the simple remedy that wrought the cure. He tells the story thus:

"Seven years ago, my wife had a severe attack of lung trouble which the physicians pronounced consumption. The cough was extremely distressing, especially at night, and was frequently attended with the spitting of blood. The doctors being unable to help her, I induced her to try Dr. Ayer's Cherry Pectoral and was surprised at the great relief it gave. Before using one whole bottle she was cured, so that now she is strong and quite healthy. That this medicine saved my wife's life I have not the least doubt. I always keep Dr. Ayer's Cherry Pectoral in the house. Whenever any of my family have a cold or cough we use it, and are promptly cured."—K. MORRIS, Memphis, Tenn.

The question: "Is consumption curable?" is still debated, and still debatable. It is easy to say that this was not a case of consumption. Yet the physicians said it was. They should know. As a matter of fact, Dr. Ayer's Cherry Pectoral has wrought so many similar cures that it seems to argue the curableness of consumption, in its earlier stages, by the use of this remedy. There is no better medicine for pulmonary troubles than Dr. Ayer's Cherry Pectoral. It gives relief in cases of Asthma, and Bronchitis, where relief has been heretofore unattainable. It promptly cures Coughs and Colds, La Grippe, and all affections of the throat and lungs. Heretofore, Dr. Ayer's Cherry Pectoral has been put up in full size bottles only, at $1.00 per bottle. To meet a world-wide demand for a smaller package, the remedy is now put up in half size bottles, at half price—50 cents. Write for Dr. Ayer's Curebook (free) and learn more of the cures effected by Dr. Ayer's Cherry Pectoral. Address J. C. Ayer Co., Lowell, Mass.

WILD BIRD'S EGGS AS FOOD.

Many That Are Eaten in Europe and Regarded as Delicacies.

In Germany and Holland crows' eggs are considered a luxury among the poorer classes, and on Prince Bismarck's eighty-third birthday a present of one hundred of these was made to him. The eggs of the rook are also looked upon as delicate food by the Germans and Hollanders. The Chinese are not only fond of swallows' nest soup, but they eat the eggs of this little bird with great relish.

Among the South Sea Islands the natives depend largely upon this kind of food, which the birds prepare for them in nests, and so important is the source of this food considered that they will rarely destroy the birds. On the great rookeries they have found the eggs supplied abundantly for them for ages, and they gather them so easily that there is no disposition to destroy the birds. It is only when civilized man comes, intent upon destroying the birds for their feathers and plumes, that these great island rookeries have been depopulated.

In Friesland the farmers have almost tamed the sheldrakes like domesticated fowls. The sheldrakes have laid their eggs in countless numbers on the heaths of the Dutch Norfolk, and the farmers, instead of killing the birds or frightening them away cultivate their acquaintance and build artificial burrows or nests in the grass for them. In these nests the sheldrakes go on laying their eggs, despite the fact that they are almost daily robbed of them. In some instances the female birds will even permit the farmers to handle them to remove the eggs. In return for all this the farmers protect the birds, and after a certain season they permit the birds to sit on their eggs and hatch out young ones. The young sheldrakes are protected just as much as our young barnyard chickens are.

The chief eggs that are sold for eating in Holland and other European cities include those of the wild ducks and fowls, gulls, plovers, sheldrakes, meadow-hens, guillemots, peewits, redshanks, turnstones, snipe, curlews, dunlins, crows, rooks, cranes, herons, coots, storks, pelicans, vultures, hawks, owls and many of the smaller land birds. These wild birds' eggs are cheaper in many countries than hens' eggs, and they constitute the chief egg diet of both rich and poor.—Boston Transcript.

GAME RECORD OF THE KAISER.

A Fine Score for a Hunter Who Can Use Only One Arm in Shooting.

In view of the fact that the kaiser's left arm is withered and useless, his record of 33,967 head of game killed with his own hand during the last two decades is a remarkable one. It is contained in his game book, which has recently been published for private circulation among the royal personages and court circles of Europe. Comprised in this total are some "pieces" which do not fall to the lot of every sportsman. Thus there are a couple of so-called "aurochsen," a species of bison that is still to be found in certain remote districts of Europe. It was exceedingly plentiful a thousand years ago, but is now almost entirely extinct. Then there are 2,175 wild boars, sixteen thousand hares, seven elk shot in Sweden, three reindeer killed in Norway and half a dozen bears, three of which were laid low in Russia and the others in Hungary. Stags figure for 1,289, pheasants at 9,643, while the emperor has only managed to bag three snipes. The record of 121 chamois is distinctly good when it is remembered what an exceedingly difficult game this is to shoot, entailing as it does, mountaineering of the most arduous and perilous character.

It must be borne in mind in connection with this game book that the kaiser cannot use his left arm to support his gun or to take aim. He is obliged to rest his weapon upon the shoulder or arm of the keeper or loader who attends him on these expeditions, and to shoot with a light rifle or fowling piece, specially constructed for him.—New York Tribune.

What It Might Stand For.

A girl baby was recently brought to a clergyman of the city to be baptized. The latter asked the name of the baby.

"Dinah M.," the father responded.

"But what does the 'M.' stand for?" interrogated the minister.

"Well, I do not know yet; it all depends upon how she turns out."

"How she turns out? Why, I do not understand you," said the dominie.

"Oh, if she turns out nice and sweet and handy about the house, like her mother, I shall call her Dinah May. But if she has a fiery temper and displays a bombshell disposition, like mine, I shall call her Dinah Might."—Syracuse Post.

Categorical.

"But what do you mean by saying that the man was more or less intoxicated?" asked the lawyer.

"Lemme see," said the witness, as he scratched his chin. "I guess I mean that if he had been more intoxicated he would have been drunk, and if he had been less he would have been sober. How'll that do?"—Indianapolis Journal.

Renovo Shops Beat the Record.

From the Renovo News.

The boiler shop has just turned out a fire box, flanged and put it up in seven days. This is a remarkably short time when the tools and other facilities are considered. Not very long ago Elmira, Baltimore and the shops here were each given a fire box to see which could make and put it up in the shortest time, all understanding it was to be a test of speed. The Renovo shop had it out inside of ten days, Elmira fourteen and Baltimore eighteen days later.

One of Two Ways

The bladder was created for one purpose, namely, a receptacle for the urine and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort, The error is easily made and may be as easily avoided To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble, The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kinney, and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one doller. You may have a sample bottle and pamphlet. both sent free by mail. upon receipt of three two-cent stamps to cover cost of postage on the bottle. Arrested on a Serious Charge.

On April 4th a deputy United States Marshal arrested Jacob From at his home in Centre Hall, and took him to Williamsport, where he was charged with extracting money from a letter addressed to another person that he had lifted at the post office and also with sending obscene matter through the mail. From gave bond for his appearance for trial before the United States circuit court and was released.

From what can be gathered by our correspondent it appears that last September Mrs. John From, of Ohio came east on a visit, and while here stopped to see her brother-in-law Jake From. A letter containing money was sent to the Centre Hall office for the woman and was handed to From, who told the postmaster, Charles Meyer, that she was stopping at his place. Instead of delivering the letter to Mrs. From, Jake is said to have broken the seal and given the money free circulation, and in addition wrote Mrs. From's husband an indecent letter concerning his wife.

The post-office authorities were advised of this act and in a short time an agent of the department came on to consult with postmaster Meyer. Evidence was collected at the time and since then sufficient has been discovered to warrant From's arrest, which was made on Monday as stated. Ex-postmaster Meyer accompanied the Marshal to Williamsport as a witness.

From is a laboring man over at Centre Hall and though he has been a pretty good sort of a fellow, his past record will be against him. Several times he has been hauled up for petty thieving and one night he received a gun shot wound in the leg that was generally believed to have been a mark of the kind of reception he got while prowling around some other person's hennery.—Watchman.

A RIFT IN THE WAR CLOUDS

One Correspondent Complains That the Washington Authorities Move Too Rapidly for Spain.

A STATEMENT COMES FROM ROME

MADRID, April 6—5:30 P. M.—The family of United States Minister Woodford will start this evening for Biarritz, France.

The staff of the United States legation has left Madrid and will probably remain in Paris for the present.

Nevertheless, the latest information is of a more assuring character. A cabinet council is now in session and it is believed the deliberation are of a very important nature; but the ministers maintain absolute reserve.

MADRID, via BAYONNE, FRANCE, April 6.—The developments in the situation today are confined to the important part the queen regent is taking in the crisis She has practically taken matters out of the hands of her ministers and is dealing direct with the United States minister—General Stewart L. Woodford—through the German and Austrian ambassadors, and is working earnestly for peace. It is known beyond doubt that Spain is now prepared to give all America has stated, although the concession must be gilded to suit Spanish palates and must take into consideration the political difficulties which confront Spain.

The hope of reaching a peaceful settlement with the United States is growing stronger It is reported that the basis of an armistice in Cuba has been arranged. If this be true a royal decree will appear in the Gazette to-morrow or Friday announcing the conclusion of an armistice.

7.40 P. M.—The official statement that affairs have taken a pacific turn has not yet become generally known and public opinion remains much excited. The Bourse has declined heavily, owing to the belief that there is dissension in the cabinet, which, however, the ministerial supporters absolutely deny.

LONDON, April 7.—The Madrid correspondent of the Daily Telegraph says: "I am able to assert that, in the opinion of more than one European government, a peaceable settlement on the basis of Spanish concessions could easily be secured if a little time were allowed for reflection and discussion, but the rapidity of events at Washington is the most dangerous element of the situation. It is questionable whether the Cubans are ripe for independence and whether such a measure could possibly be executed in a hurry."

Nearly 100 Years Old.

The Spring Mills correspondent to the Centre Hall Reporter says: M. B. Herring, of Lock Haven, a day or two since handed me a copy of the Ulster county Gazette published in Kingston, N. Y., January 4, 1800—nearly a century ago, a few items of which might not be without interest to your readers. The copy is draped in heavy black lines in mourning for George Washington, and gives quite an extended account of the funeral.

A Flag of Warning.

Beware of the dry, tickling, hacking, morning cough, for it warns you that consumption lurks near. The famous Dr. Bull's Cough Syrup will cure it. "I had a very bad cough. One doctor pronounced it consumption. I used Dr. Bull's Cough Syrup and was completely cured; the cough left me and has never come back. Simon Smasal, 375 31st Street, Chicago, Ills." Dr. Bull's Cough Syrup costs but 25 cents. Ask for Bull's, take only Bull's.

Train Over Embankment.

Thomaston, Conn., April 6.—A New York, New Haven & Hartford Railroad work train was derailed at noon near a bridge two miles to the north of this place.

It is reported that three men were killed and one or more fatally injured. This train, it is said, was backing to a siding to permit the passing of a "regular" and went down an embankment of fifteen feet.

"Just as Good"

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites of Lime and Soda as the standard, and the purchaser who desires to procure the "standard" because he knows it has been of untold benefit, should not for one instant think of taking the risk of

using some untried preparation. The substitution of something said to be "just as good" for a standard preparation twenty-five years on the market, should not be permitted by the intelligent purchaser.

Trout Season Approaches.

The heart of every true disciple of Izaak Walton leaps with delight as Friday, the 15th inst., the date marking the beginning of the trout season, approaches. There is no sport in which the fresh water angler takes greater delight than luring the speckled beauties to strike and struggle. It is well worth a few hours' journey to be early on the fishing grounds and have the first of the casting before the knowing ones fight shy. Flies have long been the favorite lures for trout, and casting the accomplishment of which the angler likes best to boast.

A SAD ACCIDENT.

Nine Year Old Stanley Brachbill Drowned In the Race.

NO ONE SAW HIM FALL IN

His Dead Body Was Found at the Forebay at Gerberich's Mill at 2:30 This Morning—Supposed to Have Fallen in While Playing.

FUNERAL FRIDAY AFTERNOON AT 2:30

This morning the startling news spread over the town that little Stanley Brachbill, the youngest son of Mrs. Margaret Brachbill, had been drowned in the race near Gerberich, Hale & Co's. mill. At first people refused to believe the terrible story but on investigation it proved only to true.

Wednesday evening about 6 o'clock Stanley, who is only nine years old, started from his home on Howard street to take his brother Will's supper to him. Will works in the skewer department of P. B. Crider & Sons mill. Little did the little fellow think when he left home that he would never return alive but such was to be his hard fate. He reached the factory all right, left his brothers supper and then his brother Will, says that he saw him go down through the lumber yard and up past the electric light house and he supposed that he went home.

It seems however that he stopped there and commenced to play with some boys of his own age. It is then believed that he returned to the mill intending to come home with Will who had told him that he was coming home at 8 o'clock instead of 12 as was usually the case.

After he left the boys he was playing with he was not seen alive again. This was about 7:30 o'clock and between that hour and 8 o'clock he was drowned. Just how he happened to fall in will never be known.

If he made any out-cry it could not be heard for the noise of the machinery prevented it. The water is very deep along here and he was probably playing along the bank when his foot slipped and he fell in.

As the hour grew late and he did not return home his mother became anxious about him. Will came home about 8 o'clock without him but they thought probably that he had stopped to come home with his brother *John* who clerks at Sourbecks. When *John* came home at half past ten without him then they became thoroughly alarmed and a search was at once started for the missing boy.

His uncle C. C. Shuey, John Lose and others were notified and officers *Mullen* and *Montgomery* were called in to make a systematic search The presentiment began to grow that some dire misfortune had befallen him. He was known to be a very quiet and obedient boy and never stayed out late at night without letting his mother know where he was. It was finally settled that the last seen of him was shortly after taking his brothers supper to him and the fear was entertained that he had fallen in the race. When the searching party reached there, their fears were confirmed by seeing the little boys cap floating on the water. *Mr.* Gerberich was aroused and the water was drawn off the race when at half past two this morning the body of the unfortunate boy was found at the forebay at Gerberichs mill.

Tenderly the remains were gathered up and taken to the home on Howard street where the grief stricken mother and family awaited him. The deepest sympathy of this whole community go out to this grief stricken family at this sad catastrophe following as it does so soon after the death of a kind and loving father. We can only bid them look to the great father above who doeth all things well, and who can comfort them even in this hour of darkest trial.

Stanley *Mulholland* Brachbill was born in Curwensville, July 10th 1889. He was 8 years 8 months and 3 days old. He was the son of the late Calvin Brachbill who died a short time ago. Stanley was a bright intelligent little fellow always stood well in his classes and was polite and obedient. He is survived by his mother, *Mrs. Margaret* Brachbill, and three brothers and one sister namely William, John, Fred and *Margaret*.

The funeral will take place Friday afternoon at 2:30 o'clock from the home. Interment in Union cemetery.

FREE CUBA!

Speech of Hon. William C. Arnold of the 28th Congressional District.

IN CONGRESS MARCH 24, 1898

Our Congressman Makes an Eloquent Appeal in the House of Representatives for Oppressed and Starving Cuba,—"Charters of Liberty are Always Written in the Blood of Heroes."—Our Honor at Stake; Our Flag Insulted.

Mr. CHAIRMAN. We stand to-day on the verge of an armed conflict, and it were well that our actions be justified by the facts and approved by honorable men everywhere. It is clear that the Maine was in a supposedly friendly harbor, and was anchored in a particular spot by direction of the Spanish authorities. Our naval court of inquiry, composed of men of unsullied honor and sterling integrity, it is believed, found that the vessel was blown up by some external force—a mine or torpedo.

As to what particular persons were the active agents we may not be informed directly, but we do know that the only party interested, and the only party which hates the United States and which was in a position to accomplish the cowardly and infamous act, was Spain. It may not have been officially directed, but the responsibility still exists. Without such direction there is such negligence as would make the party, in criminal law, guilty of manslaughter in a similar occurrence as between citizens of a State. To my mind there is moral and legal responsibility resting upon Spain. Assuming all this to be true—and I believe it to be true—what should be our demands in way of reparation? In this connection, I desire to refer to the suggestion of some un-American citizens, that the controversy be settled by arbitration.

I submit, Mr. Chairman, this can not be done with honor. We have not only lost the Maine, which in money can be estimated, but there were ushered into eternity without a moment's warning 266 American sailors, whose lives were dear to them and dear to us, and this can not be estimated or measured. Shall we make merchandise of the lives of our people? Can money purchase human life? Is gold dearer to us than the blood of patriots? No, no! And there can not be and must not be any arbitration. [Applause.] Our honor is at stake and our flag insulted. If I insult any gentleman in this House, should there be arbitration to decide and inform that gentleman whether or not he has been insulted? Again, any agreement to arbitrate is an infamous reflection on the honor and integrity of the gentlemen who composed our court of inquiry.

You may then say that my views would necessarily lead to war. In connection with other facts which I will refer to, relative to Cuba, I unhesitatingly say, yes, war, with all that it implies, unless full damages be immediately paid and the complete independence of Cuba be at once obtained. War is the incarnation of an awful tragedy, but a greater tragedy was enacted when 266 brave American sailors went down to their death through the infamy and treachery of Spain or of some of her subjects. We all love peace and it is dear to us, but may it never again be said of this great nation that we will purchase peace at the price of honor. [Applause.]

As to our recognition of belligerent rights or the independence of Cuba, I confidently assert we have both a moral and legal right so to do. International law materially differs from constitutional or statute law. First, it is not universal, and is not binding in law or conscience upon any except those nations which have so agreed. In fact, so-called international law is not law in its true sense, but is in the nature of a contract or compact or agreement by common consent. These principles, or rather agreements, are very broad and general in character, and no positive or inflexible rule of action is prescribed.

The result or effect is that each particular case must be determined by the circumstances, surroundings, and facts of that case. But as to our interference in Cuba we have authority and precedents. Grotius says:

The same justice which binds the individual as an individual must bind him as a state member. The law of nature which penetrates the individual conscience must guide the national conduct. Justice is approved of and injustice condemned by the consent of all good men in every relation of life.

D'Aubigne says:

There is a God in history. There is a moral power abroad whose dictates neither statesman nor nation can afford to despise.

Maine on International Law says:

This (Roman) jus gentium is identical with natural law, and this is, in truth, the highest law by which individuals and nations can be governed: highest in the absolute perfection of the rules which it contains; highest in the cogency of the commands which it utters, and highest in the absolute obligation of the duties which it enforces.

Let us now refer to precedents: In 1849 the United States early and promptly—being the first so to do—recognized the independence of far-off Hungary. In 1825 England recognized the independence of the revolted South American colonies of Spain, "because of sympathies, united with English commercial interests." The United States had several years earlier—in 1822—recognized the independence of these same South American republics. In 1802 England instructed its representative in Paris as follows:

You will state most distinctly His Majesty's determination never to forego his right of interfering in the affairs of the Continent on every occasion in which the interests of his own dominions may appear to him to require it. This right His Majesty possesses in common with every other independent power. It rests upon general principles.

It was in this same spirit and on the same principle that the British ministry defended the bombardment of Copenhagen and the seizure of the neutral Danish fleet.

Another precedent, interesting and pertinent at this time, was the prompt recognition by Spain in June, 1861, of the independence of the Confederate States in our own land. But it is unnecessary to multiply authority and precedents. The millions spent by our country in preventing filibustering expeditions to Cuba, the loss of tens of millions in commerce, the illegal and revolting imprisonment by Spain of American residents in Cuba, these and many other good reasons demand immediate action, which has been too long, much too long, delayed. The question will never be settled until it is settled right.

But throwing aside all precedents and all injuries, and not even considering the Maine disaster, there is a law greater and higher and nobler than any and all international law, the law of common humanity, which not only justifies but demands immediate action at our hands. More than 400,000 innocent and peaceful men, women, and children deliberately starved to death within the last two years, and hundreds, if not thousands, now dying by starvation daily, almost within sight of our shores.

Intensely and sadly interesting as is Senator PROCTOR'S and Senator GALLINGER'S portrayal of the sad scene, and though we have had full knowledge of the awful crime, no hand has been lifted to save. I have confidence in our present Chief Magistrate. I hope and believe he will measure up not only to his full duty but his opportunities. Washington, because of his labors in the cause of liberty, will live through all time. Lincoln, in the courage, gentleness, and firmness of his great heart, through all the countless ages yet to come.

And to our present Chief Magistrate there has come an opportunity seldom vouchsafed to man to build for himself, in the cause of humanity and freedom, a monument which all the assaults of all time can not destroy, and leave to posterity a glorious name, which will be revered by all men and which will be an inspiration to all in future ages who shall battle for their liberties. [Applause.]

The blood of these murdered people is on the hands of our nation today. The whole question has resolved itself into one of annihilation or independence. It has been well demonstrated that Spain can not conquer; so she has been pursuing the policy of annihilation by starvation. Simple and common humanity should now move us to duty too long delayed. Let us do right, though war result, as it probably will. The history of the world, from the slavery of the *Israelites* under Pharaoh down to this hour, shows that charters of liberty are always written in the blood of heroes.

Tehre can be no peace for Cuba, and we as a nation will ever be annoyed and troubled, until absolute independence is an accomplished fact. Independence is no new thing to the world at large or to ourselves as a nation. Autonomy for Cuba by Spain is a delusion, a snare, and a failure. Many centuries ago utonomy was a fascinating word to Hellenic ears, but it only paved the way to Hellenic subjection, and Greece perished.

In this emergency Providence points the way, duty bids us move on in the pathway of progressive civilization, humanity demands that we march resolutely forward, and justice insists that we punish deceit, perfidy, treachery, cruelty, tyranny, and savagery, which are the predominant traits of Spanish character. I put this statement against that made by General Blanco in Havana a few days ago:

The present generation will never see another banner that of Spain at the entrance to the Gulf of Mexico. That banner, representing civilization, progress, liberty, humanity, and religion, will be eternal.

How matchless the irony; how infamous the falsehood!

In the splendid progress and civilization of the last four centuries by the great nations of the world, Spain has not taken one single step forward, and she today belongs to the age of barbarism. She deserves no place and should not have a place on the map of the world. Compared with her treatment of Cubans, the Turkish massacres of the Armenians were humane.

It has been said that our intervention may cause foreign complications. This should not deter us from our plain duty; but there is no such danger; any foreign interference would be met by the two great English speaking people of the world. I would not favor "entangling alliances," but I would not refuse the active kindness of platonic, if not maternal, friendship. In this connection I am reminded of the statement of a prominent Spaniard, a few days ago, that if we became involved with Spain, there was great danger of a revolt against our Government by the late Confederate States. What gross ignorance; what an infamous slander. 'Tis true the South suffered much at the hands of the North during our late strife. Very many of her best and bravest went down to their death; beautiful homes were ruined and desolate: sorrow and despair seemed their only heritage. But, withal, honor, courage, and determination were still theirs, and with these as part and parcel of ideal manhood, a new South has sprung up, and joining hands with their brethren of the North we are all moving onward and upward to attain to the highest possibilities of the one nation—one God, one flag, one country, one destiny.

And if that flag is ever assailed I know that no hand will be quicker than that of the South to strike down the assailant, and none will more earnestly and quickly respond to defend the honor and glory of this United States.

I will not detain the House longer except to urge the duty of the hour. That duty is independence and intervention. In the name of Christ, let us be humane: in the name of humanity, let us be just; in the name of justice, let us do right; and being right, let us dare maintain it. [Loud applause.]
